

Kit for a King

The Kings of Strathclyde were hugely influential and important people and some of the stones you see at Govan Old Church were used to mark their graves.

Try this...

Draw some of the King's possessions around him.

Think about what he would need to be a successful ruler by answering these questions:

How would he travel?

Where would he live?

How would he protect himself and his people?

What would he wear?

What items may show his status?

How and what would he eat?

Remember you can only give him things that he would have been able to get in Govan in the year 900.
